

LET'S **MOVE**!

"CLUBFIT attended the Business of BTS Management Seminar in Baltimore in May 2006 with the intention of learning what things we would need to do to improve our group fitness programming. We expected to sit through hours of sales pitches on pre-choreographed programming with the hope of receiving some information on how to run our programs better. What we discovered was that BTS already knew the problems we were experiencing. Even down to the actual membership deals CLUBFIT offered. They then showed us a business model, not just group fitness programs, that we feel will change our business, our profits and how we compete."

*David Hardy
Owner, CLUBFIT*

THANKS BTS!
